About Us

About Grenbridge Ventures Limited

Grenbridge Ventures Limited is an Denmark Venture capital firm that manages a Crypto Hedge fund that invests in Blockchain technology and early token sales. The fund started as a way to reinvent investment strategies for token sales. Grenbridge Ventures Limited only invests in early token sales that pertain to an actual business, and not Initial coin offerings of tokens without interaction of a product or business.

Grenbridge Ventures Limited looks for tokens that incentivize the core actions of a protocol and/or excel in developing novel mechanisms for smart contracts. The first investments by Grenbridge Ventures Limited that went public were Tezos and MakerDAO. The fund has also invested in Ethereum.

Some of the projects that interest Grenbridge Ventures Limited are the emerging IPFS ecosystem , Tezos, RChain, PolkaDot, Dfinity and Cosmos. We are not however, looking to invest in any crypto apps. Grenbridge Ventures Limited is looking towards the future and betting on the projects that will best be able to power off web 3

Grenbridge Ventures Limited never did an Initial Coin Offering, but we have received more than \$400 million in assets from several traditional VC firms. Many of the firms are from Silicon Valley which include: Andreessen Horowitz, Abstract Ventures, Founders Fund, Sequoia Capital, and Union Square Ventures.

More investment options. More opportunities to grow.
